## *Goulston & Storrs Adopted Five Families*

Goulston & Storrs, a Boston law firm, adopted five families for the holidays and made sure they had a holiday to remember. They asked us to send wish lists of needed items as well as toy/gift ideas for the children in these families. Just before Christmas, teams of attorneys and staff drove a caravan of SUVs overflowing with beautiful new clothes, toys, and countless shimmering packages to each family. Some even delivered Christmas trees.

One teenager wished for a used computer so that she could do her homework at home, without having to go to the library each day. Goulston & Storrs attorneys acquired a nearly new computer, fixed it up, added programs, games, and a printer to the mix, and delivered it to her along with new clothing and special gifts.

One mother faced foreclosure of her home and needed only \$1,500 to hire a plumber to fix bathrooms in two of her apartments so that she could rent them to produce enough income to support the mortgage. Upon hearing this, Goulston & Storrs benefactors not only provided this family with all of the items on its holiday wish list, they collected an additional \$600 to help hire the plumber.
