

John Arsneault*

Chief Information Officer

jarsneault@goulstonstorrs.com

Boston: +1 617 574 4125

As the Chief Information Officer at Goulston & Storrs, John is responsible for the firm's technology infrastructure, application portfolio, security, support services, knowledge & research services, PMO, and records management. He is focused on improving client experience, growth opportunities, and efficiency via technology adoption.

Prior to joining Goulston & Storrs, John has held senior management roles spanning technology startups, legal services including an *AM Law* 20 firm, academia, financial services, and consulting. He has lead efforts across early-stage startups, mid-sized organizations and large-scale operations.

John is also a private equity investor and startup advisor, having has invested in over 40 tech startups.

Mr. Arsneault serves as Advisory Board Vice Chairman of Netcapital, a startup investment platform. The board is comprised of some of the most recognizable executives in the technology industry.

In addition, he serves on the advisory boards of:

- Privva, a vendor risk management platform with a heavy focus on data security and compliance.
- The Legal Tech Fund, a venture capital legal technology focused investment firm.
- Intapp, a business systems technology company with a focus on the legal and financial industries.

John is a member of The Wall Street Journal's CIO Network, the Massachusetts Technology Leadership Council and CNBC's Technology Executive Council. He is a speaker at the International Legal Technology Association (ILTA) and Argyle's Information Technology Forum. He is annual attendee at Recode's Code Conference and Y Combinator's Demo Day. John also contributes to Venture Fizz, a Boston tech startup website and routinely publishes articles on Medium.

John holds certificates in education from Harvard Business School in Delivering Information Services and Building Advantage Through Operations.

**John Arsneault is not a practicing attorney.*
