

Law & Candor: New Efficiency Gains in TAR 2.0 and CMML Revealed

March 24, 2020

Law & Candor Podcast

The TAR framework has come very far in the past couple of years. With the dawn of TAR 2.0 and CMML workflows, the industry has seen even more efficiencies gained in a traditional e-discovery workflow. However, most folks have only just touched the surface of what these new frameworks can do. Nordo Nissi of Goulston & Storrs joins co-hosts Bill Mariano and Rob Hellewell, as they uncover additional efficiency gains to be explored in TAR 2.0 and CMML around pre-production QC, privilege information, search terms, and more.
